Applicant : Thomas M. Kurth

For : PLASTIC MATERIAL

Mail Stop Patent Application
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

INFORMATION DISCLOSURE STATEMENT
UNDER 37 CFR §1.97(b)

Pursuant to 37 CFR §§1.56 and 1.97(b), Applicant brings to the attention of the Examiner the documents listed on the attached Form PTO-1449. This Information Disclosure Statement is being filed simultaneously with the above-referenced application.

Copies of the listed documents were previously submitted in prior applications, Serial No. 09/646,356, now U.S. Patent 6,465,569 and Serial No. 10/253,252, upon which Applicant relies for the benefits provided in 35 U.S.C. §120. Applicant respectfully requests that the Examiner consider the listed documents and evidence that consideration by making appropriate notations on the attached form. Enclosed, however, are copies of the foreign patent publications and relevant journal articles.

Applicant also believes that based upon the English language abstract, WO 97/07150 relates to processes and products which have been obtained with a natural component which is oil of cashew-nut shell and di and/or polyisocyanates. Since the oil is comprised of a mixture of a biphenol and a fatty acid, both having a benzene ring with phenol group and side chains with one to three double bonds, the isocyanates may react three different levels: a) the COOH of the acid; b) the phenolic OH; c) the double bond of the chains. Applicant further believes, based upon the English abstract, that WO 98/07777 relates to the use of cashew nut husk oil in rubber and duroplastics recycling. According to the abstract, it describes how this natural substance can eat into or even dissolve the vulcanized rubber car tires and be involved

Applicant : Thomas M. Kurth

based upon the English abstract, that WO 98/07777 relates to the use of cashew nut husk oil in rubber and duroplastics recycling. According to the abstract, it describes how this natural substance can eat into or even dissolve the vulcanized rubber car tires and be involved in their re-vulcanization.

This submission does not represent that a search has been made or that no better art exists and does not constitute an admission that each or all of the listed documents are material or constitute "prior art." If it should be determined that any of the listed documents do not constitute "prior art" under United States law, Applicant reserve the right to present to the Office the relevant facts and law regarding the appropriate status of such documents.

Applicant further reserve the right to take appropriate action to establish the patentability of the disclosed invention over the listed documents, should one or more of the documents be applied against the claims of the present application.

Applicant : Thomas M. Kurth
For : PLASTIC MATERIAL
Page : 3

If there is any fee due in connection with the filing of this Statement, please charge the fee to our Deposit Account No. 16-2463.

Respectfully submitted,

THOMAS M. KURTH
